Young Minds at Work is a second-year program designed to educate our area’s students about high demand careers (manufacturing/engineering, healthcare, construction/architecture, and hospitality). 7th grade students travel to multiple local businesses to discover new career options while discovering the thriving work world of Huntsville.

During the event days, supporting local companies:

-

Showcase their industry and specializations
Give a tour through the company
Present jobs of all skill/education levels
Discuss education qualifications and encourage local retainment
Open the door to new interest and potential interns

From hard hats to lab coats, students want to experience the industry as much as possible. Now is your chance to introduce students to their future careers!

Another way to support Young Minds at Work is to become an investor so more students are able to participate!

To volunteer your company or for more information, please contact Junior Achievement at 256.533.4661 or leah.amos@ja.org. YM@W is sponsored by Junior Achievement of North Alabama and The Committee of 100.
